Before you install the Product

Please check if your computer meets the system requirements specified below.

Supported Operating Systems

- Windows XP (32 Bit)
- Windows Vista
- Windows 7

Windows 95, Windows 98 and Windows 2000 are NOT SUPPORTED.

Required for all installations

- CD/DVD drive for installation using CD
- Internet Explorer 6 or higher version
- Minimum 512MB RAM
- Internet Connection for Activation & Updates
- ↓ Uninstall any other security product (firewall / antivirus program) through Start → Control Panel → Add/Remove Programs, if it is installed on your computer
- Close all active applications and proceed with installation.

Installing the product

Insert the CD into the CD/DVD drive and allow opening the following CD Start window:

Quick Installation

Click on **QUICK INSTALL** to install the product quickly and you can view the 'End User License Agreement' by clicking **View EULA**

Once you read License Agreement close the window and then click **Agree & Install** to install the product your computer.

Custom Installation

If you want to scan your computer before installing this product, you can select **CUSTOM INSTALL** to launch the Pre-Installation Scan dialog. The Pre-Install scanner detects and cleans malware in your system to ensure successful installation. Choose the option **Scan for Virus**, **Trojans, Spyware and other malware before Installation** and click **Next**.

Pre-Installation Scan
